To ~~Johnstone~~ Concern

Mrs Carswell

4 Redhouse Ave

Wednesbury
WS10 0QL

We recently had some work done on our council property by P.R.P maintenance on behalf of Sandwell Council / Aids and adaptions,

We would just like to comment on the work carried out, as we are really pleased with the final outcome. The company who carried out the work P.R.P were polite, courteous and extremely hard working, they told us everyday what work was to be carried out each day, so we were prepared for any disturbances.

They were clean and always tidied up when they left each day, we felt very involved and apart of the project. The workers, worked extremely hard from 8-5-6 everyday even most weekends. They always asked if it was ok to work at the weekends, they kept the damage to a minimal whilst at work to our existing property and put right anything that was damaged at the end of the job.

The final extension is superb, the quality of the work is 10/10, it looks wonderful and extremely practical for my husbands needs. We could not be any happier about the drive, disabled pathway and door entrance, all the work is very professional and looks crisp and smart.

I would highly recommend P.R.P maintenance to anybody who is thinking

of having and building / maintenance
work done on your behalf.

Once again what a Superb Job done

Leansell.
